

This year the Economics and BAFS Department from the Secondary Section again provided Secondary Four students with an authentic business experience by assigning them the task with operating a stall at the Chinese Flower Market on the 19<sup>th</sup> and 20<sup>th</sup> January. Under the guidance of teacher advisers, students formed their own board of directors, management team and work force. They set company goals, decided on products to sell and wrote their own business plans. They capitalized, operated and finally liquidated their companies.

There were 6 selling stalls opened to all the kindergarten, primary and secondary students. This program provided a valuable learning opportunity for students in “Other Learning Experiences” (OLE) which is essential for their further studies and future careers. This whole school function was also a charitable activity with half of the profits made by all the companies donated to worthy, charitable organisations. The event was educational and deemed a success thanks to the support received from everyone in the school.

We are looking forward to the Chinese Flower Market next year!
