

Chinese Flower Market

This is a remarkable year for all of us, not only it is the 60th anniversary of our school, but also the tenth consecutive year that our Economics and BAFS Department, together with the PTA, hosted the Chinese Flower Market just before the Chinese New Year holiday.

The Chinese Flower Market provided the Secondary Four students with an authentic business experience by letting them set up their own companies. Under the guidance of teacher advisers, students formed their own board of directors, management team and work force. They set company goals, decided on products to sell and wrote their own business plans. They capitalized, operated and finally liquidated their companies.

There were 5 selling stalls opened to all the kindergarten, primary and secondary students. This program provided a valuable learning opportunity for students in “Other Learning Experiences” (OLE) which is essential for their further studies and future careers. This whole school function was also a charitable activity with half of the profits made by all the companies donated to worthy, charitable organizations. The event was educational and deemed a success thanks to the support received from everyone in the school.
