

“Dream about the future”

To promote integral human development of young people and communities through the process of understanding, concern, participation and co-responsibility, our school participated in the “Dream about the future” program designed to encourage students to commit to the well-being of society and personal development.

The program aims to raise non-Chinese speaking youths’ awareness of their further studies/career pathways and provide them with an opportunity to share their views with different stakeholders. Our S.4 students were able to experience university life and share ideas and experiences with current HKU non-Chinese speaking students. They also participated in the “International Day for the Elimination of Racial Discrimination 2019 Forum”.
