

## **Flag Selling for New Life Psychiatric Rehabilitation Association**

This year, 52 S.4 and S.5 students joined the flag selling for New Life Psychiatric Rehabilitation Association on 19th January, 2019. Our students did inspirational work by approaching the citizens and inviting them to buy the flags. Throughout the event the students wore big smiles and showed their sincerity towards the community. Some citizens were willing to donate \$100 and even \$500 for charity. People's altruistic behaviours further inspired our students to work harder. The social service was mutually beneficial to both our students and the society.
