

Our school has participated in the Multicultural Dream Pursuit Project co-organized by the Education Bureau and Caritas Youth and Community Service since it commenced in 2015. Training sessions, career visits and job shadowing exercises were provided for over 1400 Non-Chinese Speaking (NCS) students from more than 40 secondary schools to obtain career-related information and counselling advice for their career-life planning in further studies and employment.

Our students performed very well and achieved excellent results in the project. 64 students were awarded and the following awards.
