

Caring School Award 2019

We are honored to receive the Caring School Award 2019 organized by the Hong Kong Christian Service.

Cultivating a school culture of love and care, the Life and Career Planning Team has launched a series of six-year life planning programs to meet the needs of students at different stages.

Students have ample opportunities to explore their talents, interests, strengths and abilities. Gaining self-confidence and having a better understanding of themselves, they learn to respect each other and recognize the importance of choosing a subject and career.

Students are encouraged to integrate academic knowledge into professional development with a positive attitude towards life. We will continue to guide our students to realize their potential and broaden their knowledge and horizons.
