

Admission Info and Activity Day 2017

Potential Rosaryhill Secondary School students and their parents were invited to join in the school's Admission Info and Activity Day on 18th November 2017. The event aimed to inform the attending primary school children and their parents about the subjects offered at Rosaryhill Secondary School, as well as the support and activities the school provides.

30 primary schools in Hong Kong and Kowloon were invited to attend. After a brief introduction to the school, students and parents were given the chance to learn more about the four core subjects by viewing materials and talking to teachers at the subject counters located in the school hall.

Students and parents then attended various 'taster lessons' designed to highlight the diverse and interesting subjects offered at Rosaryhill Secondary school. Home Economics, Visual Arts, Music, Physical Education and Integrated Science were all on show in the 35 minute lessons. The students appeared excited at the prospect of learning more about the subjects in the not too distant future.

A tour of the school was also given to the attendees, many of whom commented positively on the size, environmentally pleasing location and outdoor facilities the school has to offer.

Once all the attendees were back in the hall the school choir entertained them with a beautiful performance that underlined the many different extra-curricular activities students can become involved in.

Before leaving the school, students and parents were invited to enjoy the activities on offer at the different academic game booths located in the west wing covered playground. They included Computer, Economics and Geography, History and Chinese History, Putonghua, Religious Studies and Science booths. There were even Coffee Art Club and Photo Spots booths.
