

Statement

In response to recent reports about the incident on April 11th in our school, we would like to reiterate the following statement:

1. Our school has been closely following up on the conditions of the students involved in the incident and maintaining close contact with their families, rendering support and assistance on a timely basis. We sincerely wish the injured student a speedy recovery.
2. Our school is always committed to nurture an inclusive and welcoming campus. We would like to emphasize that the incident is unrelated to racial conflicts, and the incident was only an isolated incident. We strive to provide a secure, loving and caring school environment in which all students, regardless of race, nationality or religion, can learn and play in harmony, appreciate differences and uphold mutual respect.
3. Situation Management Task Force was deployed immediately after the incident to coordinate student welfare works. On the following day after the incident, the Principal hosted a special assembly, addressing the incident to all students with a loving yet disciplinary spirit, followed by a special class teacher session in which students were encouraged to express their emotion and opinion. We aim to monitor students' reaction to stress and identify those who would need further group or individual counselling. Professional intervention by school-based social workers and education psychologists was arranged on a timely basis, hoping to minimise the impact on our students. To prevent similar incidents from happening again, we are in the process of enhancing preventive measures to be incorporated into life education curriculum.
4. Ever since the incident happened, our school has been conveying factual information to relevant parties, treating matters fairly and impartially, and cooperating with the police unreservedly to facilitate the investigation. While the police are currently conducting investigation of the captioned case, we are advised not to further disclose any details at this moment.
5. We reserve our rights to take legal action against whoever makes recent falsified and distorted reportings.
