

Chairperson's Report of Parent-Teacher Association

2013-14

Good afternoon

Father supervisor , Principal , honourable guests , teachers , parents and students.

It is my honour and pleasure to speak to you at the PTA AGM (Annual General Meeting). The home-school cooperation has been giving me very special impression especially when I see how my child and his fellow schoolmates grow healthily both physically and mentally from teenagers to young adults with the family and school support.

Therefore, we are playing an important role to help our children to grow and sail through the period of puberty. Talks and workshop have been run for parents by the PTA and we parents have to learn how to get along with our kids who are sometimes very disobedient, violent and unreasonable. We need to be patient when dealing with them and walking with them is a must. Don't leave them alone.

Besides, the PTA offers Emergency financial support to those in need. Here, I have to thank the PTA for providing good channels to serve the fellow parents and students.

The school and the teachers have catered for students' individual differences through running various activities, just name a few, the junior and the senior leadership camps and the Integrated Learning Week. Students' growth and transition need our support and trust.

I hope our kids can enjoy a life-long relationship with the school and Rosaryhill School is their home away from home.

I have to thank Father Christopher, Mr. Kwan, teachers and all the members for making the PTA a success and we can carry on the good work to serve you again.

Thank you.

**Yuen Sek Cheung
PTA Chairman**
